

COOKIE POLICY

1. Introduction

Our website uses cookies to provide users with a smoother, more personalized, and safer browsing experience.

Cookies help the system remember and store your settings, preferences, and usage behavior, thereby improving website performance and supporting data analysis to optimize our services.

By continuing to access or returning to use this website, you agree to our use of cookies in accordance with this Policy.

2. Types of Cookies Used

2.1. Persistent Cookies

This type of cookie is stored on your device even after you close your browser. It helps remember login information, preferred language, or other settings you have configured, so that your experience is faster and more convenient when you revisit the website.

2.2. Secure Cookies

These cookies are transmitted only through HTTPS connections, ensuring that your data is encrypted and secure when accessing the website.

As a result, personal information or sensitive information such as account information or personal data is protected from unauthorized access during transmission.

2.3. HTTP-Only Cookies

This type of cookie can only be accessed by the server and cannot be interfered with or read by JavaScript code.

This helps reduce the risk of attacks such as XSS (Cross-Site Scripting), further enhancing security for users when logging in or performing actions on the system.

3. Cookie Management

You may adjust cookie permissions in your browser settings. If you do not want cookies to be stored, you may delete or disable cookies at any time. However, disabling cookies may cause certain features on the website to function improperly or may reduce your user experience.

4. Contact

If you have any questions or concerns regarding the use of cookies, please contact us via email: support@talentaxis.ai

5. Conclusion

We are committed to using cookies in a transparent, secure manner and in compliance with applicable user information security regulations.

Our goal is to provide you with the best possible experience when accessing the website while ensuring that your personal data is always protected.
